<TEXT>It's obvious that nobody wants to pay more for telephone service. If there was a benefit that would arrive from the increase, it would be considered; however, don't you think the income is already being mis-appropriated? It is common for one person to pay for a home telephone, fax, internet, personal cell phone, work cell phone and pager. I can't see the need for an increase.

Jodi Christensen

Sincerely,

Jodi Christensen
